

About

Progressive Training College is committed to helping all of our current and graduated students secure employment. As a value-added service, resume preparation, interview techniques, and effective job search strategies are integrated in all of our programs. Weekly job clubs are held throughout the duration of our programs the students receive valuable information on relevant job search topics. Networking opportunities are also a large component of these job clubs as present and past students exchange contact information and share job leads.

Progressive Training College has a history of providing effective placement services from which we have developed an extensive database of employers that have taken on our students for both co-op and employment positions. Our outreach to

our alumni also ensures that this database is current. Co-op placements are included in all of our skills training diploma programs and can also be purchased as a separate service or added to any of our other programs.

Visit our website at www.ptcollege.com for more information on all of our programs.

PTC is a registered private career college under the Private Career Colleges Act, 2005
